Just read today's entry. This workshop couldn't have come at a better time for me. Thank you!!

I've been thinking about all of the great input I've gotten from all of you. Particularly about taking care of myself and what that really means. Every morning before I get out of bed I thank the Divine for this new day, and as part of my daily intentions I include "How will I take care of myself today?" It could be meditating or discerning what is mine to own and what isn't. On a beautiful day off yesterday it was a bike ride, yoga, pedicure, energy work, massage, bath, and reading. It was a glorious day. Today it is staying present. How will you take care of yourself today?

Pleasure 101: Love it!! Sunshine, a soft breeze, sipping coffee. Stepping out of my comfort zone of my midwestern frump and puttin' on a skirt I've had forever and never worn because it wasn't something I'd typically put on for the day. A bit of a daring thing from my ordinary old ho-hum.
