

- ♣ Ready to plug back in to *pleasure and play*?
- ♣ Get "unstuck" as you kick start your personal **goals**
- ♣ Receive support as you create a *hot and juicy* life
- ♣ Tap into YOUR bliss

Ann and Christie have personally worked with hundreds of women in their psychotherapy practice and in their work with Hot Pink YOUiversity to increase their personal potential. Through their expertise and loving support, you too will create the life you always **dreamed** of having. For a very limited time and only to a very limited number of women meeting the criteria set forth, Ann and Christie will spend **six months** guiding you to plug back into life and turn up the volume to **live out loud!**

This program will change your life!

- *Tired of making goals and never getting them to success, whether it is weight or relationships, you seem to only get so far?*
- *Feeling alone in your personal journey?*
- *Spending too much time feeling dim, unplugged, a lack of spark in life?*

What if six months from now you could go from dim to **on fire**? From unplugged to **electrified**? from darkness to an **inferno**? We believe you can, and we have seen others do it. But, you can't do it alone....

Plug into the energy and support of the Hot Pink Tribe created by Christie and Ann.

- ♣ **Two** personal sessions each month, one with Christie and one with Ann
- ♣ An **additional virtual classroom** each month with all the women, taking you through the process
- ♣ Time for Q & A each month
- ♣ Support from your on-line Hot Pink Tribe.
- ♣ An e-workbook to create the life you **desire!**
- ♣ **Three** life line calls, pre-scheduled with the ladies of Hot Pink YOUiversity for support when you leap into personal risks and dance outside your comfort zone!

This level of intensity and accountability is what you need to **create a life** of out loud living!
